SOLID-STATE IMAGE SENSOR DEVICE AND DRIVING METHOD

	<u>X</u>	is attached hereto.	
(check		was filed on, as	
one)		Application Serial No	
,		and was amended on	
		(if applicable)	
I hereby stat	e that I have as amended l	reviewed and understand the contents of the above identified specification, by any amendment referred to above.	
	ge the duty to the patentabl	o disclose to the United States Patent Office all information which is known to lity of this application in accordance with Title 37, Code of Federal	
		t believe this invention was ever known or used in the United States of America of, or patented or described in any printed publication in any country before my	
pefore my or our invor our invortion there of the United States of the United States of the States o	ention thered reof or more ates of Amer d or made th to the United velve months vention has b r my legal re	of, or patented or described in any primetal publication in the same was not in public use or of the same was not in public use or of the same than one year prior to this application, and I believe that the invention is subject of an inventor's certificate issued before the date of this application is states of America on an application filed by me or my legal representatives or prior to this application, and that no application for patent or inventor's seen filed in any country foreign to the United States of America prior to this presentatives or assigns, except as identified below:	on n n
pefore my or our involver our invention there is ale in the United States and been patente any country foreign assigns more than two certificate on this in application by me of	ention thered reof or more ates of Amer d or made th to the United welve months vention has b r my legal re	of, or patented or described in any primetal publication and any examples than one year prior to this application, that the same was not in public use or contica more than one year prior to this application, and I believe that the invention is subject of an inventor's certificate issued before the date of this application is States of America on an application filed by me or my legal representatives or prior to this application, and that no application for patent or inventor's seen filed in any country foreign to the United States of America prior to this presentatives or assigns, except as identified below:	on n n
pefore my or our involver our invention there is ale in the United States on the patente any country foreign assigns more than two certificate on this in application by me of application for possible application (s) for possible or the possible application (s) for possible our invention (s) for possible or the possible of the possib	ention thered are of or more ates of Amer do the United welve months wention has be my legal repair foreign patent or inver	of, or patented or described in any primeta publication in any tinan one year prior to this application, that the same was not in public use or of the control of the same was not in public use or of the same than one year prior to this application, and I believe that the invention is subject of an inventor's certificate issued before the date of this application in States of America on an application filed by me or my legal representatives or prior to this application, and that no application for patent or inventor's prior to this application, and that no application for patent or inventor's presentatives or assigns, except as identified below: Arriority benefits under Title 35, United States Code, 119 of any foreign and or's certificate listed below	on n n
pefore my or our involver our invention there is ale in the United States on the patente any country foreign assigns more than two certificate on this in application by me of application for possible application (s) for possible or the possible application (s) for possible our invention (s) for possible or the possible of the possib	ention therected or more ates of Amerd or made the to the United velve months wention has been my legal reputent or invertion Applicati	of, or patented or described in any primeta publication in any tinan one year prior to this application, that the same was not in public use or of ica more than one year prior to this application, and I believe that the invention is subject of an inventor's certificate issued before the date of this application in States of America on an application filed by me or my legal representatives or prior to this application, and that no application for patent or inventor's seen filed in any country foreign to the United States of America prior to this presentatives or assigns, except as identified below: Ariority benefits under Title 35, United States Code, 119 of any foreign ator's certificate listed below on(s)	on n n
pefore my or our involver our invention there is ale in the United States on the patente any country foreign assigns more than two certificate on this in application by me of application for possible application (s) for possible or the possible application (s) for possible our invention (s) for possible or the possible of the possib	ention therecteof or more ates of Americal or made the to the United welve months wention has been my legal relation foreign patent or inversion Application Coun	of, or patented or described in any primeta publication in any examples in than one year prior to this application, that the same was not in public use or of the common one year prior to this application, and I believe that the invention is subject of an inventor's certificate issued before the date of this application in States of America on an application filed by me or my legal representatives or prior to this application, and that no application for patent or inventor's seen filed in any country foreign to the United States of America prior to this presentatives or assigns, except as identified below: Arrivity benefits under Title 35, United States Code, 119 of any foreign attor's certificate listed below on(s) Date Type 2, 1998	on n n
pefore my or our involver our invention there is ale in the United States in the United States not been patente any country foreign assigns more than two certificate on this in application by me of the property of the Prior Foreign Number P10-152434	ention thered eef or more ates of Amer d or made th to the United welve months vention has b r my legal re aim foreign p atent or inver ign Applicati Coun	of, or patented or described in any primeta publication in any examples in than one year prior to this application, that the same was not in public use or of the common one year prior to this application, and I believe that the invention is subject of an inventor's certificate issued before the date of this application in States of America on an application filed by me or my legal representatives or prior to this application, and that no application for patent or inventor's seen filed in any country foreign to the United States of America prior to this presentatives or assigns, except as identified below: Arrivity benefits under Title 35, United States Code, 119 of any foreign attor's certificate listed below on(s) Date Type 2, 1998	on n n

already of record or being made of record in the application, and

⁽¹⁾ It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim; or

⁽²⁾ It refutes, or is inconsistent with, a position the applicant takes in:

⁽i) Opposing an argument of unpatentability relied on by the Office, or

⁽ii) Asserting an argument of patentability.

A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

Prior Foreign Application(s)
Number Country

Date

If no priority is claimed, I have identified all foreign patent applications filed prior to this application:
